

Want charity benefits without starting one?

You keep your focus on making a difference, we'll sort out the rest.

- Your own Charity Bank account - Gift aid* claimed and added on your behalf.
- The Kingdom Network CIO acts an 'umbrella' charity supporting grassroots to nationwide
- Stress free, no more need for Charity requirements (trustees/accounts/legals)

Eligible? Open to anyone who either relieves any form of poverty (emotional/financial/mental) or furthers Christian faith.

Curious? Think you need to make it more like a Charity?

We had the same thing trying to do something good in our community but really regretted the effort and constant admin requirements, let alone finding experienced trustees for starting a charity. We suddenly realised the number of other people who must be in the same circumstances so decided to use our expertise to have maximum impact helping others in the same boat.

The Kingdom Network sidelines these challenges of Charity Governance on your behalf, like an incubator charity for as long as you want.

We can set up a group bank account to receive funds and spend as you see fit - debit cards, internet banking, the works. Even better? We can add some gift aid (*a percentage of the gift aid claimed on your behalf is used to cover central costs and funding a specialise grants program for The Kingdom Network groups).

No stress, normal bank account, access to grants, free and clear bookkeeping/reports, no taxation headaches and no Charity Governance headaches - all the benefits of being a charity, but none of the work so you can focus on making a difference.
